These are the Draft Plans of Emission Reduction Strategies for the Lower Savannah Region submitted for the December 10, 2003 Early Action Compact Milestone.

Early Action Compact Milestone – December 10, 2003 Draft Plan of Emission Reduction Strategies

Aiken County

Based on stakeholder consultation and taking into consideration resource and political constraints, the following control measures under consideration can be reasonably implemented. It is anticipated these measures under consideration will assist Aiken County in achieving and/or maintaining the 8-hour ozone standard by 2007.

			Proposed	Geographic area
Measure under	Description of measure	Estimate of emission	date for	and/or local
Consideration	(A more detailed description will be included in the Early Action Plan.)	reductions (if available)	implementation	government
Air Quality	One person will be identified as the Air Quality	Not available	March 2003	Countywide
Contact	Contact for Aiken County. At a minimum, this contact will be responsible for ozone education/outreach and dissemination of ozone forecast. Each participating industry and municipality will also have an Air Quality Contact			
Support state- wide efforts	Aiken County will support the efforts of SC DHEC regarding statewide emission reduction strategies.	Not available	When Available	Countywide
Alternative Fuels	 Switch Aiken County Transit Fleet to Bio-diesel. Convert SCE&G Power Plant from Coal Burning to Gas Turbine Generators. Switch diesel vehicles to bio-diesel. 	Not available Not available	- June 2002 - 2002	- Transit service area - SCE&G Aiken Power Plant - Aiken County Industries
Type II Fuels	Use low-sulfur Type II fuels in all vehicles	Not Available	When Available in Aiken County	Countywide
Community Awareness and Education	Promote the Aiken County Early Action Plan at meetings where the public is invited. Issue press releases to the local media. SCE&G is promoting an energy conservation awareness program.	Not available	July 2003	Countywide

Commuter	Promote transit as a mode of transportation to get	Not Available	May 2003	Transit Service
Choice Program	to the workplace through employer incentives.			Area

Stricter Controls of Illegal/ Unauthorized Outdoor Burning:	Barnwell County's Fire Districts, Emergency Services and Sheriff's Department will work in combination with State Agencies to develop this action. This action will focus on issues dealing with illegal burning, tires, plastics, roofing materials and hazardous substances.	Not available	Still under review	County wide
Vehicle Replacement:	Barnwell County's Business Manager will develop a plan to purchase replacement vehicles with a priority on vehicles and equipment with the latest emission reduction standards. Over a five to seven year period our present fleet can be replaced with a cleaner burning and better fuel-efficient fleet.	Not available	Still under review	County wide
Community Awareness and Education:	Enhancing Ozone awareness and education will be a vital part of our Early Action Plan. Aggressive A/E programs to motivate individuals, business, industries and organization to take actions to minimize ozone pollution. A/E will include public speaking, distribution of educational materials and increased media alerts promoting Clean Air Awareness.	Not available	Still under review	County wide
Energy Reduction Plan:	Energy Conservation Plans will be developed that directs county departments to reduce overall yearly energy usage by 5-10 percent per month.	Not available	Still under review	County wide

Early Action Compact Milestone – December 2003 List of Emission Reduction Strategies Under Consideration

Calhoun County

Based on stakeholder consultation and taking into consideration resource and political constraints, the following control measures under consideration can be reasonably implemented. It is anticipated these measures under consideration will assist <insert county name> in achieving and/or maintaining the 8-hour ozone standard by 2007.

			Proposed	Geographic area
Measure under	Description of measure	Current assessment of	date for	and/or local
Consideration	(A more detailed description will be included in the Early Action Plan.)	emission reductions	implementation	government
Air Quality	One person will be identified as the Air Quality	Not available	March 2003	County wide
Contact	Contact. At a minimum, this contact will be			
	responsible for ozone education/outreach and			
	dissemination of ozone forecast.			
Support state-	<calhoun county=""> will support the efforts of SC</calhoun>	Not available	August 2003	County wide
wide efforts	DHEC regarding state-wide emission reduction			
	strategies.
